

## 98% Purity Nootropic Powder Supplements CAS 62936-56-5 Picamilon Sodium Raw Powder

Our Product Introduction

for more products please visit us on [bodybuild-supplement.com](http://bodybuild-supplement.com)

### Basic Information

- Place of Origin: China
- Minimum Order Quantity: 10Grams
- Price: USD
- Packaging Details: 1kg/Foil Bag
- Delivery Time: 3-7days after received payment
- Payment Terms: T/T, Western Union,PayPal
- Supply Ability: 5000KG Per Year

### Product Specification

- Product Name: Picamilon Sodium
- Cas: 62936-56-5
- Appearance: White Powder
- Purity: 98%
- Usage: Nootropic
- Highlight: **Nootropic Powder Supplements 62936-56-5, 98% Purity Nootropic Powder Supplements, Picamilon Sodium Raw Powder**

## Product Description

### 98% Purity Nootropic Picamilon Sodium Raw Powder CAS 62936-56-5

#### What is Picamilon sodium

Picamilon Sodium Powder Picamilon is a linked derivative of the vitamin Niacin (vitamin B3, nicotinic acid) with the inhibitory neurotransmitter GABA.

Picamilon is a synthetic research smart drug developed by Russian scientists from the All-Union Research Institute. The drug was developed in the 1960s, and it started being used as a prescription drug in Russia in 1986. Russian doctors prescribed it to improve brain functions such as memory, attention, and learning. It was also used for treating chronic alcoholism, brain trauma and to improve brain blood circulation.

Picamilon is a unique GABA booster. Niacin, which does more than crossing the GABA through the blood-brain barrier, gives Picamilon an extra edge over other similar drugs. For instance, this drug improves cerebrovascular activities better than other nootropics like Piracetam and Vinpocetine. It's even better than some prescription drugs like papaverine, xanthinol niacinate, and cinnarizine. Some people also prefer Picamilon to Phenibut because it is not sedating.

#### Dosages for reference

We do not provide any clear guidelines on how to dose the drug. Trials are also unclear on the appropriate dosages to use, and that's because most of the studies are done in test tubes.

With that said, most people use between 50 to 100mg of Picamilon taken twice or thrice a day. We will advise you to consult a licensed medical practitioner for a clearer dosage guideline.

**Tell the doctor if you have any side effect that bothers you or that does not go away.**

**These are not all the possible side effects of this product. For more information, ask your doctor or pharmacist.**
