Our Product Introduction

### **Product Description**

### High Purity Peptide Raw Powder Teriparatide Acetate/Parathyroid Hormone CAS 52232-67-4

Basic Info.	
Product name	Teriparatide acetate
Function:	Hormones and Regulation of Endocrine Function of Drug
Certification:	GMP
Grade Standard:	Medicine Grade
Туре:	Pharmaceutical
State:	Solid
Volatile:	Not Volatile
Model NO.	API
Appearance	White Powder
Transport Package	Aluminum Tin, Aluminum Bag, Fiber Drum
Specification	USP, EP
Origin	China
HS Code	2923900091

#### **Product Introduction**

Oxytocin is a type of uterine contraction drug and can be derived from the animal posterior pituitary or chemically synthesized. Oxytocin is a uterine contraction drug that is mostly used in late pregnancy induction and stagnant birth due to weak uterine contractions. Suitable for inducing labor and alleviating pain. Commonly used with ergot preparations to be used in inducing labor, expediting labor, and in uterine bleeding due to weak uterine contractions following birth or still birth. Nose drops can be used to promote lactation.
